El color es un principio clave en el diseño de interiores, es nuestro lenguaje. El color lo cambia todo, mantiene los espacios vivos. El color es emoción. Y Gancedo se ha propuesto crear emociones con Chromatics, una colección capaz de tejer relaciones emocionales entre las personas y los espacios que habitan.

Chromatics es una colección compuesta de dos perchas dobles que contienen catorce diseños -de distintos acabados y texturas- en 111 fabulosas combinaciones de color, muy actuales. Chromatics es una gama de telas increíblemente resistentes y duraderas, una colección de coordinados que se puede utilizar en todas las propuestas decorativas, ya que tienen múltiples aplicaciones.

En ella encontramos colores de tendencia como los cálidos tonos terrosos: café, arcilla, caramelo, caldero... que descansan junto a tonos pastel: flor de cerezo, vainilla, rosa flamenco... y una cascada de azules petróleo, verde grisáceo, verde alga y verde bosque, todos ellos mezclados con colores fácilmente combinables, como el azul marino, el azul vaquero o el gris acero.

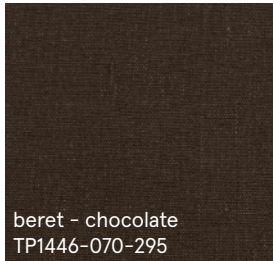

Colour changes everything, keeps the spaces alive. Colour is important is emotion. Gancedo creates emotions with Chromatics, Gancedo colours that weave emotional relationships between people and their spaces.

Chromatics is a 2-double hangers of plains collection, an incredibly durable range of fabrics. Featuring fourteen designs across 111 fabulous colorways, Chromatic plains is a go-to collection of co-ordinates that can be used across all Gancedo articles.

Key trend colors such as warm earthy tones: coffee, adobe, caramel, tandoori, colors... sit alongside pastel shades: blossom, vanilla, flamingo.... and a waterfall of teal, trellis, seagrass and forest greens along with useful colors like navy, denim and steel.
