LOS ANDES

LOS ANDES FR de Gancedo Contract es una colección inspirada en la cordillera de la que toma el nombre, el diseño principal es precisamente una espiga que nos recuerda a la forma de los Andes, en un estilo un poco retro o años 60.

Los Andes FR son chenillas ignífugas -fabricadas 100% en poliéster FR- que te envuelven y te cautivan con su suave tacto aterciopelado.

Se compone de un liso con textura de espiga, un zigzag bicolor y un falso liso de doble cara, todos en una amplia gama de colores y con alta resistencia al desgaste. Los tonos son atrevidos y de plena actualidad -para hoteles de playa- como el mostaza, el teja, el coral, el verde menta, el azul Klein o el petróleo, y se complementan con otros más neutros, fácilmente combinables, como el azul marino o el verde bosque, y tonos terrosos, en la gama de los marrones y de los grises, perfectos para hoteles urbanos.

FR LOS ANDES by Gancedo Contract is a collection inspired by the mountain range from which it takes its name, the main pattern, in something of a retro 60s style, being a herringbone which calls to mind the shape of the Andes.

FR Los Andes features flame retardant chenilles – manufactured in 100% polyester – that envelop you and captivate you with their plush, velvety feel. They come in plain with a herringbone texture, a two-tone zigzag, and a reversible mock plain, all in a wide range of colours and highly resistant to wear-and-tear. They feature daring, right up to the minute shades – for seaside hotels – namely mustard, brick red, coral, mint green, Klein blue and petrol blue, complementing other more neutral shades that easily mix and match, such as navy blue and forest green, and earthy tones in a range of browns and greys, perfect for city hotels.
