Malibú Wallpapers

Las playas de California y sus lujosas casas de los años 70, han sido la inspiración de una colección de papeles pintados que nos trasladan al glamour de Hollywood de aquella década.

En Gancedo retomamos el diseño de papeles pintados, proponiendo una compilación que nos recuerda a los patrones setenteros de origen futurista. Sin miedo a romper con los convencionalismos y añadiendo detalles geométricos, étnicos, de espiga, psicodélicos que generan sorprendentes efectos visuales, los estampados juegan un papel principal en esta nueva colección que desborda la imaginación.

La paleta de color de estas piezas mantiene la divertida transgresión de la época, pero volviéndose más sutil y combinable, así, destacan el azul marino, los grises, diferentes gamas de rosa, violetas, verdes o topo sobre un fondo blanco, todos ellos envueltos en tonalidades suaves que, coordinados entre sí, dibujan las formas que nos seducen, inspiran y admiten una perfecta combinación con elementos de decoración de carácter más contemporáneo.

MALIBU es una recopilación de revestimientos de tejido no tejido (TNT), ignífugos, que permiten una fácil instalación y mantenimiento. Piezas que vestirán tus estancias con una estética retro y elegante, convirtiéndose en la esencia de tu estilo y dándole un toque personal a tus espacios, pero con una vocación de permanencia.

Seguimos inspirando decoración y vibramos con la energía que reflejamos en nuestras creaciones.

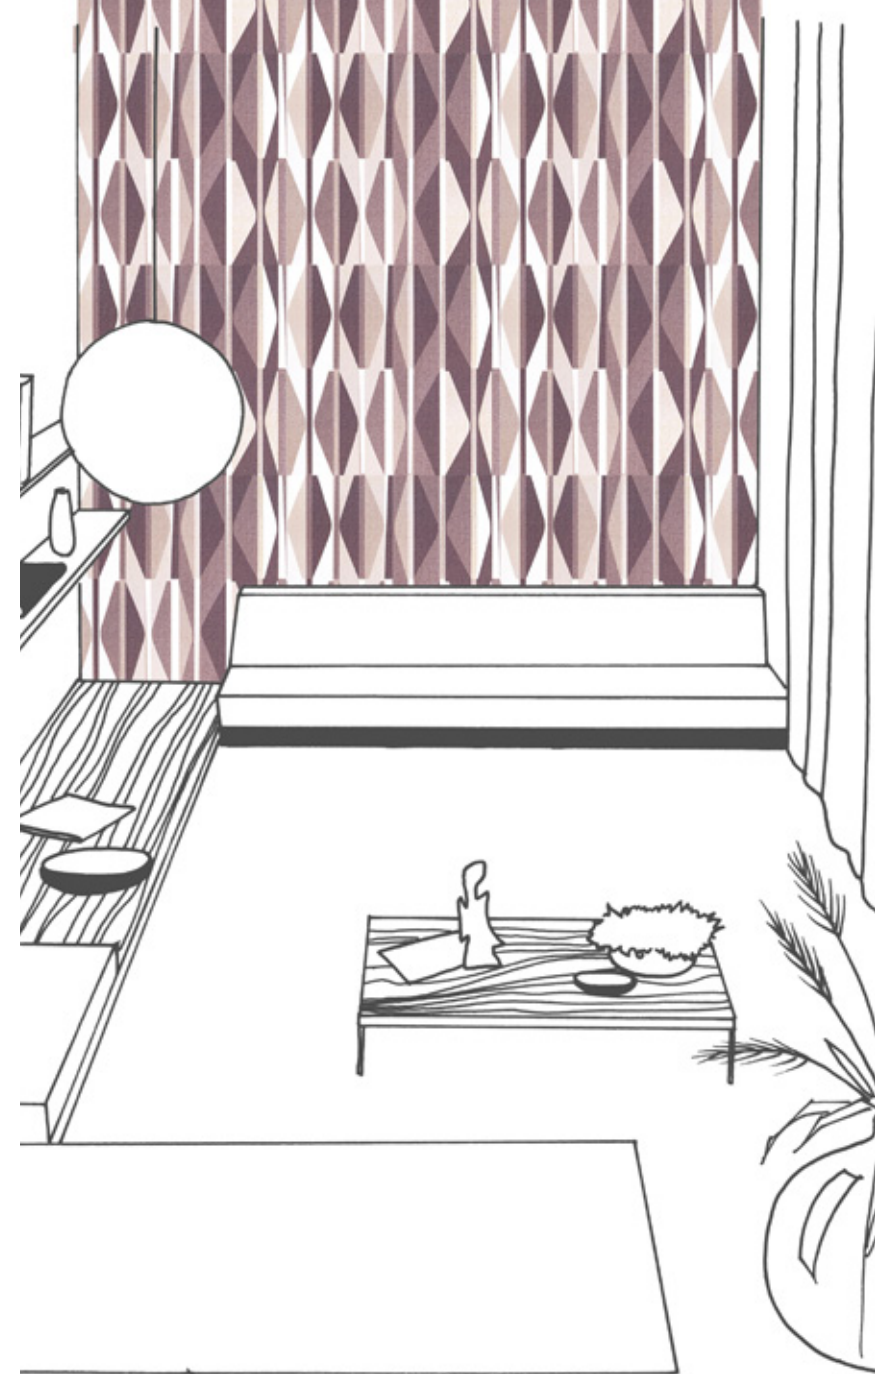

Californian beaches along with their luxurious 70s houses have provided the inspiration for a collection of wallpapers that whisk us back to the Hollywood glamour of that decade.

At Gancedo we have returned to designing wallpapers, putting forward an assortment evoking memories of 70s patterns with a futuristic look. Unafraid to challenge conventionality and with the addition of geometrical, ethnic, herringbone, and psychedelic details that produce surprising visual effects, these prints are the key players in this new collection brimming over with imagination.

The colour palette of these pieces retains the amusing unconventionality of the period, but in a more subtle and interconnected fashion: thus, navy blue, greys, different ranges of pinks, violets, greens and taupe stand out against a white background, all of them enshrouded in soft mixing and matching colourways which sketch out the shapes that captivate and inspire us, and allow us to blend them perfectly with more contemporarily styled decorative items.

MALIBU features a compendium of coverings in flame retardant non-woven fabric (NW), allowing for ease of installation and maintenance. Pieces which will endow your living spaces with an elegant retro aesthetic, encapsulating the very essence of your style and lending a personal touch to your rooms, while remaining committed to longevity.

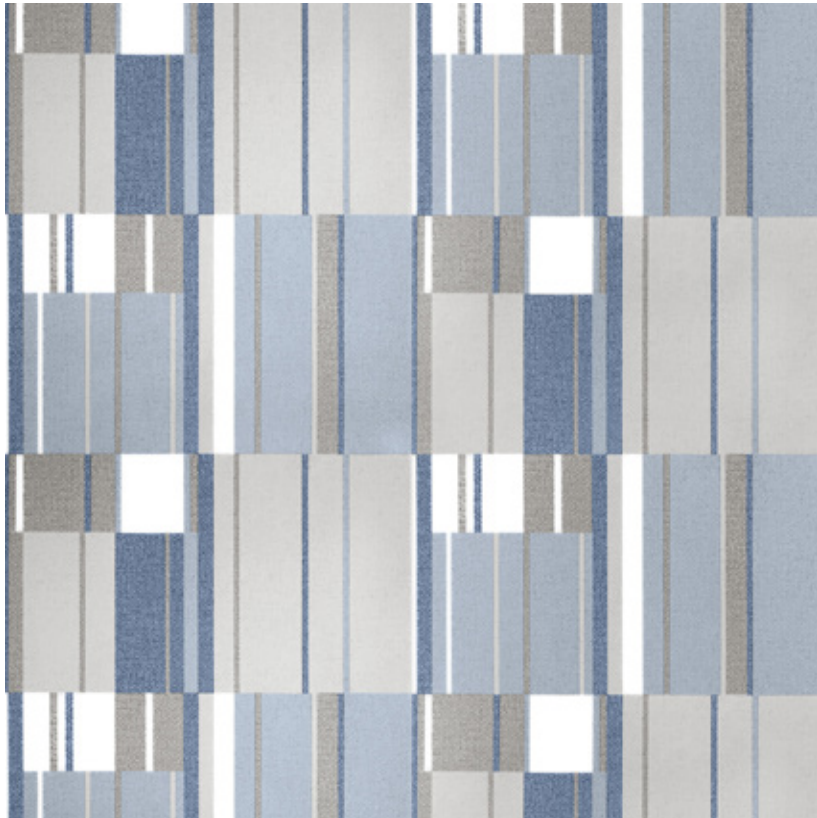

We are forging ahead giving impetus to decorating schemes and buzzing with the energy reflected in our creations.
