MU 1981

gancedo  
1945

Durante el último año hemos vivido el “capítulo final” de una historia de incertidumbre y de inquietud, una historia de “pandemia”. Un periodo en el que las consecuencias han tomado forma de “inercia durmiente”, somnolencia: un estado entre el sueño y la vigilia que se ha alargado en el tiempo. Esta historia de hibernación, de inquietud y de ansiedad ha llegado a su fin. **Es hora de descansar, de recuperarse y de celebrar un nuevo comienzo.**

**Concebida para alimentar y contribuir a la recuperación del sueño, el descanso y el cuidado personal, nace la nueva colección de visillos de Gancedo.** La creación de espacios de ensueño, ambientes de aire relajado, confortable y decididamente cálidos suponen el epicentro de esta nueva colección. Una apuesta decisiva para recibir esta nueva etapa con el mejor de los estados de ánimo.

**Los tejidos VISILLOS IX de Gancedo son de lino, algodón o poliéster reciclado ignífugo. Son sostenibles, suaves y agradables al tacto.** Una nueva edición de textiles transparentes que desvían y tamizan la luz durante el día, invitando a la calma, con un marcado acento femenino y potenciando el gusto por materiales lujosos y táctiles.

*During the past year we have experienced the “final chapter” of a story of uncertainty and worry, a “pandemic” story. A period in which consequences have taken the shape of a “drowsy torpor”, listlessness: a state between sleep and wakefulness which has prolonged time. This story of hibernation, worry and anxiety has come to an end. **It’s time to rest, recover and celebrate new beginnings.***

*Intended to bolster and contribute to the recovery of sleep, rest and personal care, the new Gancedo voile collection is born. The epicentre of this new collection features the creation of dreamy spaces, decidedly warm atmospheres with a relaxed, comfortable feel. Opting decisively to welcome this new stage in the best possible state of mind.*

*The Gancedo VISILLOS IX fabrics are linen, cotton and recycled flame-retardant polyester. They are sustainable, soft, and pleasant to the touch. A new edition of translucent textiles which deflect and filter the light during the day, encouraging calmness, with a markedly feminine touch, enhancing the taste for sumptuous, tactile materials.*

Night with her Train of Stars (1912) - Edward Robert Hughes

Encontramos en esta compilación una amplia variedad de diseños, desde lisos como los Mild (gasa vaporosa), Mellow (agradable como la lana) o Azure (algodón reciclado empleado en la confección de jeans) hasta los Chamber FR o Haven FR con diseño de diferentes tipos de rayas paralelas y sutiles, pasando por otros que alternan líneas finas y gruesas como los Sanctuary FR, aportando un estilo desenfadado y bohemio de corte ibicenco. Completan el conjunto, visillos de tacto grueso, que evocan la forma de una fastuosa y tupida red como los Doze FR.

Los visillos de exterior tienen también presencia en esta colección: **Lunar FR** tejidos con hilos de la colección Nuance, en tono neutro, pensados para aportar frescor a los espacios outdoor a modo de pérgola, separando ambientes o aislando pequeños oasis en jardines o terrazas.

Por último, el visillo **Cloud** toma especial relevancia en esta edición, debido a su textura y diseño: A imitación del amoroso tejido de borreguito, descubrimos esta nueva forma de suavizar la luz a modo de cortina/visillo o para tapizar elementos de decoración como almohadones o plaids. Se trata de un textil esponjoso y agradable al tacto que aporta un toque de calidez y eleva la decoración de cualquier estancia.

Una gama de 23 visillos entre los que 13 referencias son **Flame Retardant**, dedicadas especialmente al mundo **contract** y agrupadas en una categoría llamada **VELUM FR**. Cumplen con los estándares imprescindibles para el sector y son en su mayoría tejidos con hilos reciclados **Oeko-tex\***.

#### Paleta de color

La paleta de color es conscientemente desafiante pero claramente edificante. Desatura los tonos naturales, brindando la impresión neutra perfecta y contribuyendo a crear el estado de ánimo relajante adecuado: **pearl, stone, beige, linen, tienen ecos más ligeros que el blue, gold y grey.**

**VISILLOS IX** son piezas que emplean materias primas de última generación y las innovaciones más recientes para su creación: hilos reciclados y fibras naturales: lino, algodón reciclado y poliéster reciclado para favorecer un descanso no sólo físico y natural, sino también de conciencia, garantizando que Gancedo se mantiene fiel al compromiso de una reducción constante de la huella medioambiental en todas sus ediciones.

*In this compilation we find an array of designs, from plains such as Mild (airy chiffon), Mellow (as nice as wool) and Azure (recycled jean-making cotton) to Chamber FR and Have FR with a pattern of different types of subtle parallel lines, as well as others with contrasting broad and narrow stripes, such as Sanctuary FR, conveying an Ibiza-type unruffled, bohemian style. Completing the whole, coarse-grained voiles, such as Doze FR, evoking the shape of a sumptuous, thick net.*

*Outdoor voiles are also represented in this collection: Lunar FR fabrics with yarns from the Nuance collection, in a neutral shade, designed to lend coolness to outdoor spaces, similar to a pergola, separating environments and setting apart little oases in gardens and terraces.*

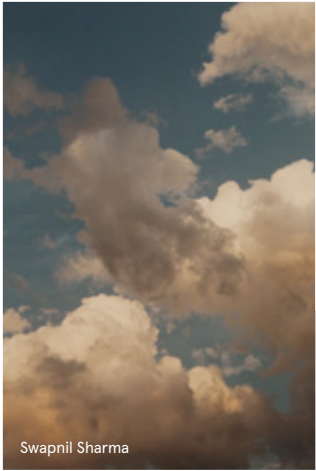

*Finally, particularly significant in this edition is the Cloud voile, owing to its texture and design: reminiscent of a lovely sheepskin weave, we have discovered this new way of softening light either by using a curtain/voile or by upholstering decorative items such as large cushions and throws. This is a fluffy textile, pleasant to the touch, adding a hint of warmth and enhancing the décor of any room.*

*A range of 23 voiles, 13 of which are Flame Retardant, specially intended for the world of Contract and brought together in a category named VELUM FR. They meet the essential standards of the sector and are mostly woven using recycled Oeko-tex\* yarns.*

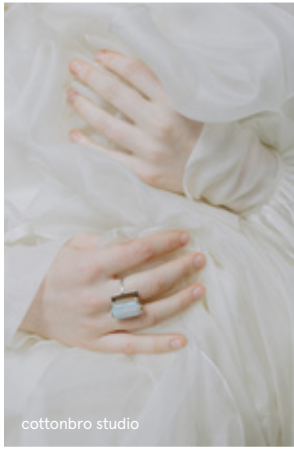

#### Colour palette

*The colour palette is deliberately challenging but clearly inspiring. Desaturating the natural shades, it offers the perfect neutral impression, contributing to the creation of a suitably relaxing state of mind: **pearl, stone, beige, linen have lighter echoes than blue, gold and grey.***

*VISILLOS IX are items which use the latest raw materials and the most cutting edge innovations in their creation: recycled yarns and natural fibres: linen, recycled cotton and recycled polyester that encourage not only a natural, physical repose but also a clear conscience, ensuring that Gancedo remains faithful to the commitment to ongoing reduction of its environmental footprint in all of its editions.*
